In all seriousness - really -- I have to take you out in the back room and chew you out!

You have insulted and assaulted [ Astro Motel ] projected a serious problem into the mix of a State of California Auditor's report.

Maybe or maybe not you would be hidden from the point of view. Somehow you have had your way for decades in the view of what you do. In truthfulness sirs, whatever your highest order of respect goes for, let us pick Ketchup. and you build an entire scheme of minds focusing of the Ketchup. You come up with Best Use of Ketchup and Cheerios in a First Time Advance in Rank. So now you have a reward of rank advancement, with two different things attached. It does not matter what it is -- these items of real-world objects and the items of reward advancement each individually are a meme.

Ketchup Meme

Cheerios Meme

Advance In Rank Meme

All three of these memes collectively are a memeplex.

As a memeplex - these 3 items are interconnected and they are physically mapped into the structures of a human's mind. Not only they are mapped into the structures of a human mind, but for all of those humans who have this memeplex within their mind, the structure in the encoding of the physical process onto the very very small micro size --- all who have these 3 memes, the mapping is the same.

Now, this is the strangest part. This is the point that I can't see why you all would take this risk of time. I really can't see why you all don't realize something.

A meme is an object of cultural identity that transfers from one mind to another. That is not one human mind to another. One mind, to another, and depending on the specious objects is all minds are encoded the same.

There is a technology called "Brain Fingerprinting" - that is one part of this. But more than that,

as Gene is to Genetics, Meme is to Memetics.

For all time human history, there has always been what is scientifically known as "mapped the Human Genome" a gene.

Even if we did not understand that science, we still as humans understood the passing down traits from parent to child. Right?

We can talk about Crispr -- That is a completely different time of the talk. But that is also present in this.

THAT IS TRUE! Crispr is a protein that cuts DNA like a knife so fine and so perfect that when you take a put to different edges together they redock or reattach like there was never a cut in the first place. You have just performed human editing of the DNA instruction code. ALL life DNA is the same across all life forms.

You can snip this from that and paste it into this. What you get, I am sure yet. One of these skillful persons was trying to make a GLOW IN THE DARK DOG. I am serious. Most people don't realize this is as slight or subtle as you want to think it is -- no, it is not - it is very very powerful to think about.

In all of your life experiences, from the time before you were even born, your mind [ or brain ] has this encoded structure. In fact, the human mind is the very most complex single structure of our known universe.

Your brain, My brain. The very most complex structure of the encoding of memes into the entire process -- that is the process to which we are actually talking right here. I said, very very powerful to think about.

What you do in your back rooms, or on TV in front of the world is all encoded into this thing we call our mind. We can't escape and say, if it is possible someday, to actually interpret the individual memes that are in our minds. Individual memes and how they then combine upon each other to their memplex.

IF [ which we have already achieved ] a technology can identify objects in your mind, then where do we go when artificial intelligence is actually able to read our mind.

Can we lie and get away with it? No

Should we ever lie? No!

Can we ever lie? Sure, but risky business eh?

The better concept here is.

Why do you lie? [ Because you don't realize you encoding a line that future technology is going to bust you in - AUTOMATICALLY BUST YOU IN ]

Is it really worth it to carry on this ideology that basically you have to collect in force a lie onto all of our society? The source and the backroom agreements. Do you think there is something there to consider...

That is the question of whether or not you understand.

I have had this peace-building mission attached to this house on Grande Vista since 2006. This with the permission of my father. You can not take it away from me. Why would you attempt to back and forth avoid avoid avoid avoid - it causes a very entangled encoding in your mind. If you are doing this activity like a psychopath, your mind [ the very small structures of the mind ] can see you are not very honest. To me, the timeframe we are living, and you are in the mode of lying so free. The time date

itself can be determined when you got yourself in this understanding and stopped lying for the major part of your life. There is a break of time - in your mind - and you have absolutely nothing but your own way of missing the need to stop lying.

This is true. Why would you set yourself up for a BIG SLAP IN THE FACE in the future -- stop lying!

And I hope we never have this, but if we had this -- nothing is hard nose bulldoze anything is possible from left to right as malleable and changeable our entire mind.

I highly recommend -- that we take the time, and stop this nonsense that has been developed -- in the training of something you have created so corrupt sirs. I really don't think that a majority of humans want to show themselves [ technology or not [ as a FLAT OUT TWO TIMING Liar! ]

One lie goes this way and a lie goes that way, and we get rocked back and forth. Just be as simple as can honest when you apply the Hierarchy of Basic Humans needs onto the subject --can indeed reach to just about anything to make it happen and happen grandly!

For all time human history, there has always been a meme. Like it or not, we have had an understanding of what is the cultural shock when one country invades another. We have been able to see the cause to effect over time of such crashes. So none of these are beyond reason.

Agency Comments

Each of the departments that submitted written responses to our report generally agreed with our recommendations, with some exceptions. Stockton Police did not clearly state whether it would implement our recommendations, but noted that it would analyze our audit and see how it can align its policies and procedures with best practices. San Bernardino Police did not submit a written response to our report however, we incorporate its perspective on our findings and recommendations throughout the text of the report.

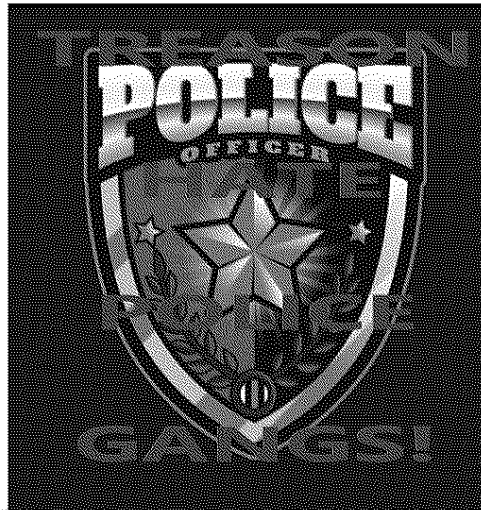

DIRECTLY RELATED TO THIS CITIZEN JAMES MARTIN DRISKILL HISTORY DOCUMENTED AND ANY WRITTEN REPLY WOULD HAVE BEEN DISPROVEN AS TRUE -- I AM SERIOUS - THIS IS DANGEROUS - THAT DANGEROUS!

I WAS NOT EVEN IN THE STATE OF TEXAS IN DECEMBER - ALL THREE OF THESE BLOOD TEST RESULTS HAVE ABSOLUTELY NO ACTION OF A BLOOD DRAW - COMPLETELY FAKE/FALSE RECORDS!

HELP? I FEEL THAT THEY ARE ATTEMPTING SOMETHING HERE DANGEROUS TO MY LIFE! THEY ARE DOING SOMETHING TO KILL ME - FOR SURE HELP! HELP! HELP!

### Words To Live By

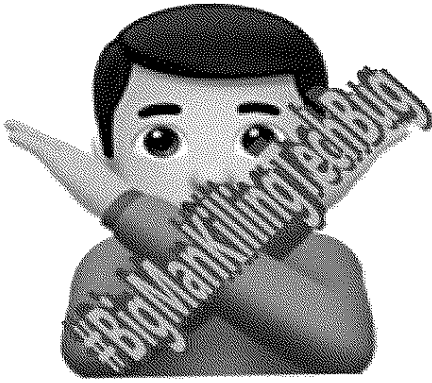

Art thou dejected?  
Is thy mind o'ercast?  
To chase thy gloom,  
Go fix some weighty truth;  
Chain down some passion; do some generous good;  
Teach Ignorance to see, or Grief to smile;  
Correct thy friend; befriend thy greatest foe;  
Be just in all things; make amends  
For follies past, and, with warm heart,  
Forgive, and be forgiven. Let work not words  
Thy virtue prove. Go act as well as prate,  
And then thy counsels will be strong,  
Thy reprimands avail. —ANON

THE province of the historian is to gather the threads of the past ere they elude forever his grasp and weave them into a harmonious web to which the art preservative may give immortality. Therefore he who would rescue from fast gathering oblivion the deeds of a community and send them on to futurity in an imperishable record should deliver a plain unvarnished tale.
